## 3. CONCLUSION

## 1. INTRODUCTION

USK LOGIN is a product for client management. It will explain the purpose and features of the system, the interfaces of the system, what the system will do. This system will be designed to minimize the difficulties for manage clients by providing search keys, notifications and invoices. Agent and Admin are the two users. The Agent can register with this Application using basic data and by selecting the category. And registration will complete by selecting the basic plan. The agent would complete the online payment using Razor pay Payment Gateway method. With this Application, Agent can easily access all services by using the search key. Agent can login to this application in three system. The links containing each service will make easy access to the official website.

## 2. DETAILED DESCRIPTION

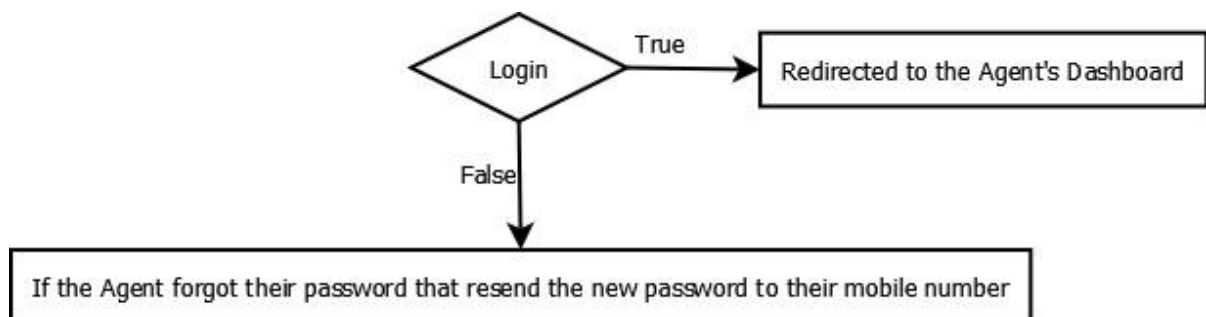

USK LOGIN is a Web Application that used for client management. The sidebar contains fifteen options that are Dashboard, Services, Generate Posters, Generate Bills, Generate Forms, Documents, Software, Tools, Marketing Tips, Other Ideas, Agency Portals, Back Office Services, Bonus for USK Agent, My Account and Support. The Agent can register using basic data. Checking the Privacy Policy is direct to the page that shows the payment option. Each agent can register by paying the basic plan amount. For this we can use Razor pay Payment Gateway method. After the successful payment, the account is created. The Username of the account is the registered mobile number of the Agent and there generated a User ID and Password for the agent. The password will send to the corresponding mobile number as a text message after registration.

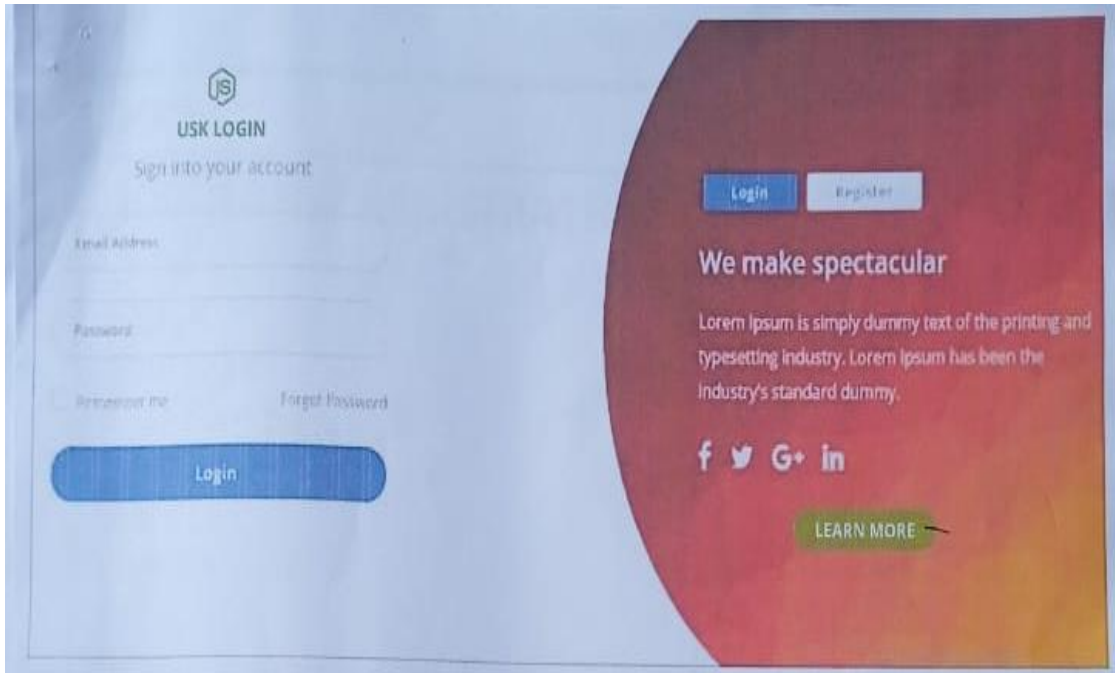

A screenshot of a web browser window displaying a registration form titled "USK AGENT REGISTRATION". The form includes input fields for "NAME :-", "SHOP NAME:-", "SHOP ADDRESS :-", "E MAIL :-", "MOBILE :-", and "CATAGORY (LIST)". Below these fields is a checkbox labeled "PRIVACY POLICY (WILL DRAFT)" which is checked. At the bottom of the form is a green button labeled "PAY AND REGISTER".

After the registration the Agent can login using User ID and password. If the Agent forgot their password by clicking “Forgot Password” option it will send the new password to their mobile number. The login page contains a button “LEARN MORE”. While click on that button it will directed to the USK LOGIN website. When there is any important message during login, it will pop up.

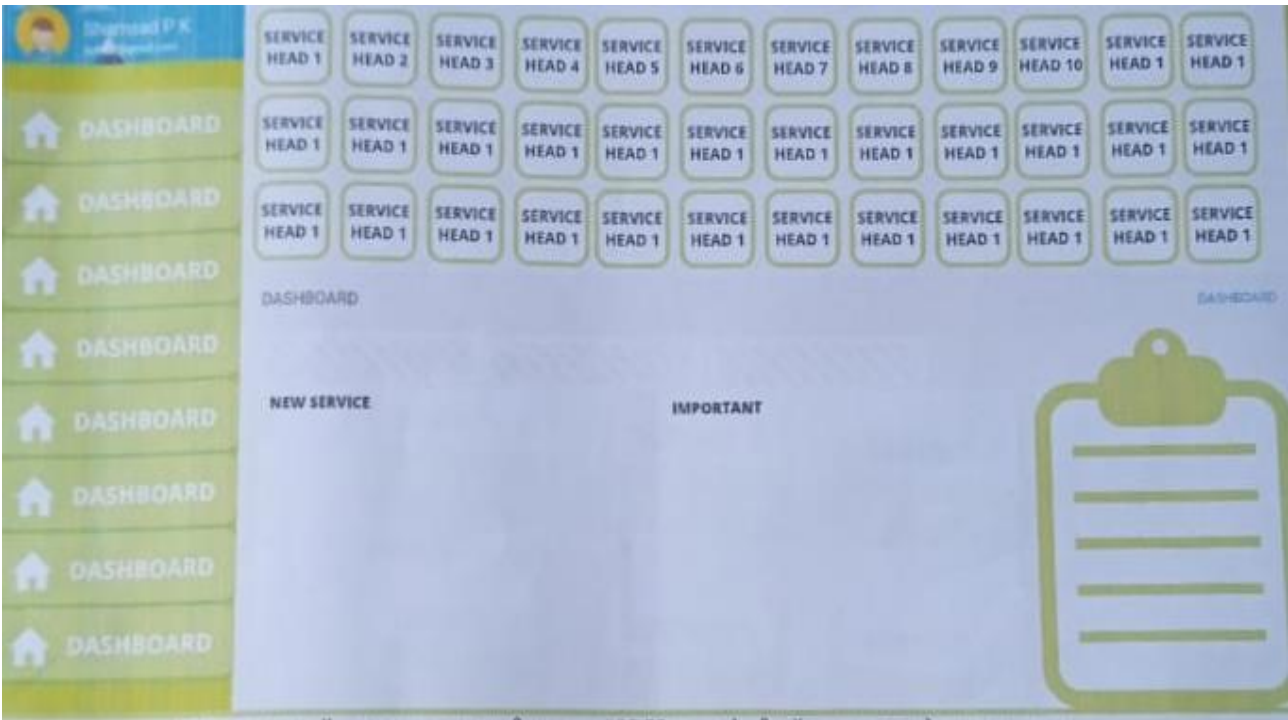

2.1 AGENT

2.1.1 DASHBOARD

This page contains the resize button and search icon. The resize button can change the size of the sidebar. And can search the whole keywords in the application. The agent will get all services added by the admin. By clicking on each service head, it will redirect to the section that contains the sub-service under the service head. While clicking the notification icon it will show all notifications added by Admin. Clicking on a link in any message will take you to the linked site. In the news scrolling section, the news uploaded by the admin will keep scrolling. The NEW SERVICE and IMPORTANT sections are dynamic. Admin can add posters to this section through Admin Panel.

## 2.1.2 SERVICES

This page contains the resize button and search icon. The resize button can change the size of the sidebar. And can search whole keyword in the application. By clicking on each service head, it will redirect to the section that contains the sub-service under the service head. Each service contains an image, the name of the service and a button “GET MORE”. While clicking on the service image and service name it will go to the official website’s service page. And while clicking on the get more button it will show a pop-up form that contains details of the service with three buttons “VIDEO TUTORIAL”, “GUIDELINE”, DOWNLOAD FORMS”. The video contains you tube video, guideline contains a PDF that uploaded by Admin, Agent can download or to take print of all forms and documents related to that service.

### 2.1.3 GENERATE POSTERS

This page contains recently uploaded, common services, festival posters, and professional services. Each section contains posters, by added admin. While clicking on the poster an image that contains the details of the brand will be attached to the bottom portion of the poster and can download it.

## 2.1.4 GENERATE BILLS

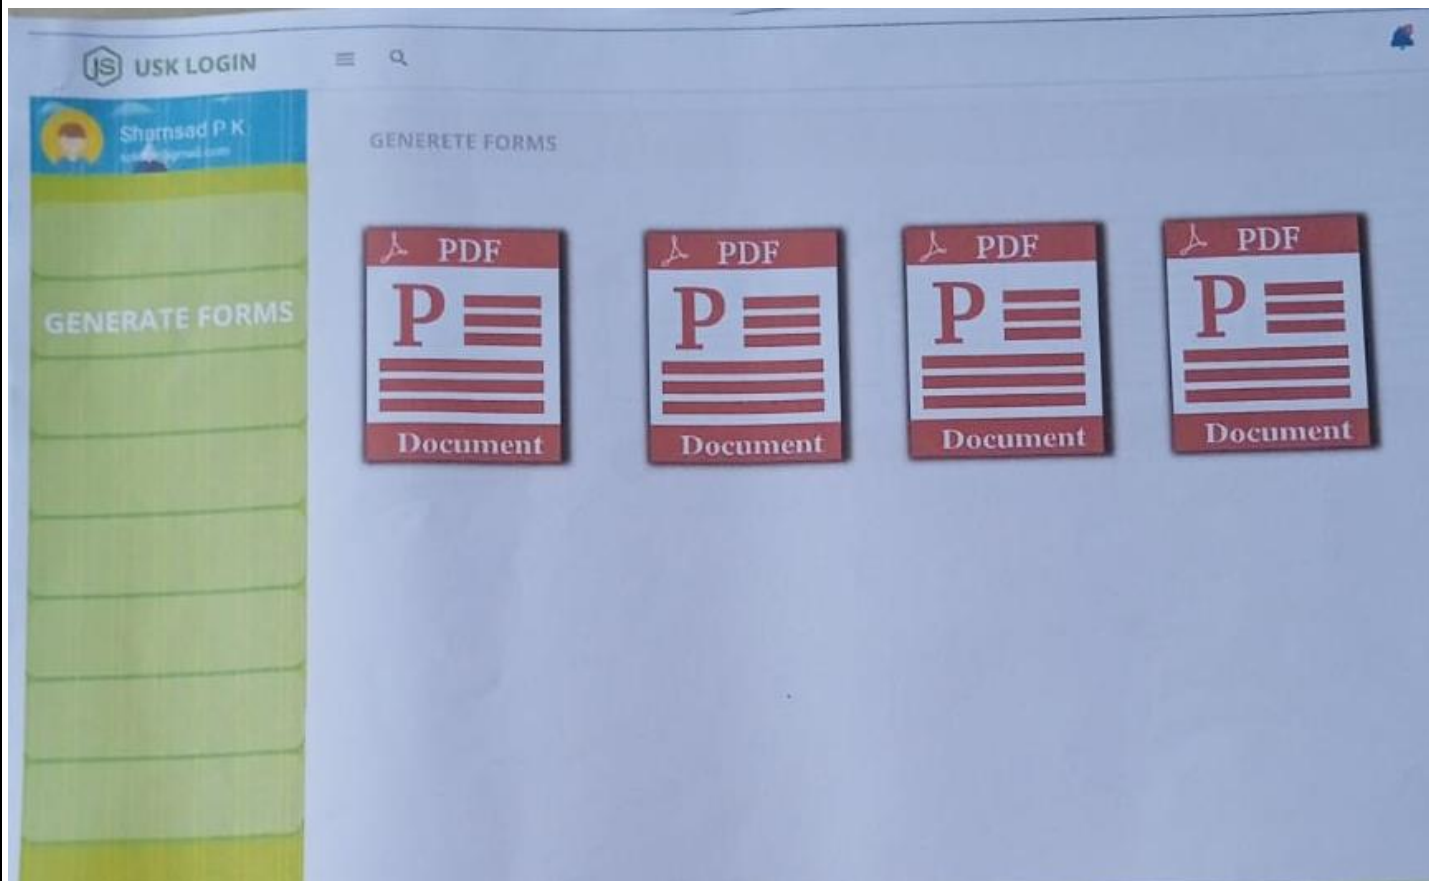

An agent can search for services and can generate the bill. When creating the bill, if the customer has username and password, the option to type it will be shown, if not, then there is no need. Agent can create the bill. While clicking on REPORTS will show the list of activities on the excel sheet. An agent can search the details of the customer using the customer id.

The screenshot shows a web application interface for generating bills. On the left is a green sidebar with a 'JS USK LOGIN' header and a 'GENERATE BILLS' button. The main content area is titled 'GENERATE BILLS' and features a large 'INVOICE' header with the number 'INV-1234567890'. Below this is a form with fields for 'To: CUSTOMER NAME', 'Address: PLACE', and 'Mobile: NUMBER'. A table lists services with columns for 'DESCRIPTION', 'USER ID AND PASSWORD', 'SERVICE CHARGE', and 'TOTAL'. The table contains five rows of service entries. Below the table, there are fields for 'Invoice No: 123-456-789', 'Invoice Date: 19 July, 2022', and 'TOTAL: 500.00'. A 'BILLER NAME' field is also present. A 'SHOPP NAME' field is at the bottom left. On the right, there are buttons for 'REPORTS', 'SEARCH', 'SAVE - EDIT - DELETE', 'Download', and 'SAVE AND PRINT'. Handwritten notes in blue ink are visible over the 'SAVE - EDIT - DELETE' and 'Download' buttons.

DESCRIPTION	USER ID AND PASSWORD	SERVICE CHARGE	TOTAL
Service 1	User ID Password		
Service 2	User ID Password		
Service 3			
Service 4			
Service 5
